

**Nancy Petersen****Science, Science Olympiad**

Nancy began teaching Middle School science here in 1987, having previously taught for three years in upstate New York. She earned her Bachelor of Arts in interdisciplinary natural science from Potsdam State College, New York, and has accumulated over thirty graduate hours from Keene State, Antioch New England, and the Syracuse School of Forestry. She spent several years working on curriculum writing, and she has been part of the writing team for the National Energy Foundation and the University of Utah Museum of Natural History. In addition to teaching seventh grade science, Nancy coaches our seventh grade Science Olympiad team. Her other interests include reading, quilting, Ukrainian egg dying, traveling, playing the violin/fiddle, and hiking.
