

Sally Wakefield**Math and Compacted Math**

This is Sally's 25th year at the school. She loves to travel and spend time outdoors hiking, biking and running. Her most recent adventures include climbing Mount Kilimanjaro, walking the Camino do Santiago de Compostela in Spain, cycling the San Juan Islands, and circumnavigating Isla Espiritu Santo in a kayak. Her two children, who graduated from Rowland Hall, humor her by accompanying her on marathon runs. She received both her Bachelor of Science in education and Masters of Education here in Utah.
