

**Paul Christensen:**

Paul is beginning his 28th year in the Rowland Hall math department. He is grateful that he is able to spend his career at such a great institution, and to be surrounded by such wonderful and inspirational colleagues. His favorite "perk" of being at Rowland Hall is interim, which has given him years of great adventures and stories! Paul has a B.A. in French from the University of Utah with a minor in teaching mathematics. At Rowland Hall Paul teaches Geometry, Pre-Calculus and first year Calculus, but he also teaches College Algebra and Pre-Calculus for the University of Utah on weekends and summer nights. Paul and his wife Pat are the parents of three children, all of whom are now college students. Paul's favorite part about summer is hiking and bicycling, and he enjoys photography all year-round.
